Unequal Participation (Figure 2)

In low-poverty schools, students participate in gifted programs at more than twice the rate that students in high-poverty schools do. Black and Hispanic students are also underrepresented in gifted programs, making up only 10 and 18 percent of students in gifted programs, respectively, but about 16 and 25 percent of students overall.

NOTE: Data on racial makeup and participation in gifted programs are from the 2013-14 school year. School poverty levels are based on 2014-15 data on eligibility for free and reduced-price lunch.
